

# 2007 CENSUS OF AGRICULTURE

NASS.OK.7-8.B

Name \_\_\_\_\_

## Making reasonable estimates of agricultural data over time

Using the website [www.nass.usda.gov](http://www.nass.usda.gov), click on the Livestock and Animals tab on the left, select Livestock and then the species you would like to find information about and make some reasonable estimates.

1. Find the total number of all cattle, sheep and lambs, and hogs and pigs produced annually. Then make a prediction on what the reasonable estimate of number of head that might be predicted in 2011.

	2008	2009	2010
<b>Cattle All for January 1</b>			
<b>Sheep and Lambs</b>			
<b>Hogs and Pigs</b>			

Predicted numbers for 2011: \_\_\_\_\_

\_\_\_\_\_

Cattle \_\_\_\_\_ Sheep \_\_\_\_\_ Pigs \_\_\_\_\_

Using the website [www.nass.usda.gov](http://www.nass.usda.gov), click on the Crops and Plants tab on the left, select Field Crops and then the crop you would like to find information about and make some reasonable estimates.

2. Find the total number of acres planted of all wheat, corn field, and all potatoes in production annually. Then, make a prediction for the acres in production in 2011.

	2008	2009	2010
<b>Wheat All</b>			
<b>Corn Field</b>			
<b>Potatoes All</b>			

Predicted numbers for 2011: \_\_\_\_\_

\_\_\_\_\_

Wheat \_\_\_\_\_ Corn \_\_\_\_\_ Potatoes \_\_\_\_\_
